

Safer Homes Toolkit

A pioneering approach to Property Compliance

Deliver your Property Compliance Service with a unified approach rather than a multitude of complex processes and systems.

Navigating your way through all compliance workstreams

Using our team's experience, the Safer Homes Toolkit helps ensure compliance across all workstreams, providing the tools to create one robust set of processes for:

- > **Gas Servicing**
- > **Fire Risk Assessment**
- > **Legionella Control**
- > **Asbestos Management**
- > **Fixed Electrical Testing**

and all property compliance disciplines

All of your IT and housing consultancy needs under one roof
www.manifestconsulting.co.uk

Like the sound of greater simplicity and consistency?

Our Toolkit provides:

- > **Peace of mind**
Apply our principles and create a robust strategy
- > **Time savings**
An all-encompassing approach that frees up your team's time
- > **Faster outputs**
By making system design easier, your projects can move faster

Here is how it works:

Stage 1: Compliance consultation

The first step is to understand more about your current Property Compliance service, discussing how our Toolkit would help your organisation.

Stage 2: Bespoke quotation

You will receive a quotation, tailored to your needs and with our recommendations for using the Toolkit. Plus, a suggested scope of work.

Stage 3: Implementation

We'll provide you with your Toolkit, and work with you to implement its principles, helping you to think about Property Compliance differently.

Stage 4: Review stage

You will receive a post implementation "check day" six months after we've completed our initial work, ensuring the Toolkit's principles are being used effectively.

Don't add to the complexity. Navigate a simpler way through Property Compliance. **Contact us on 0203 797 1012** or email hello@manifestconsulting.co.uk to book a free consultation.
